## IMPORTANT NOTICE

The order of the Standard Catalogue of U. S. Coins and Tokens and the Standard Paper Money Catalogue has been followed in this catalogue. So that collectors may have a quick guide to value we have placed after each lot the 1942 catalogue valuation with such revisions as appear in the 1943 supplement. This valuation is by no means a limit or reserve. Where a definite valuation has not been given in the catalogue for condition quoted it has been averaged. United States proof coins are in great demand and most dealers offer 60% to 80% of catalogue for them. Therefore bids of less than 70% of catalogue will not be entered. The scarcer proofs usually bring above 80% of catalogue value.

# **NATIONAL COIN ALBUM BINDERS**

The binders used to house pages of the National Coin Album have always been of the steel-ring type to give the maximum in strength and durability. Steel has now been allocated to vital war industries, and prohibited for non-essential purposes. We therefore will not be able to supply our regular binders. During the period in which these binders are unobtainable, we will furnish without charge, a plain cardboard box with every five pages purchased, which will hold the pages conveniently for the time being.

We still have a complete stock of pages and will supply binders as soon as possible after the war.

# HAVE YOU A COLLECTION TO SELL?

This company has been actively engaged as coin dealers in New York since 1912 and has always held one of the most important stocks in the country. Due to constant recent sales our stock along certain lines is badly depleted and we are particularly anxious to buy average collections of United States coins worth from \$2000 to \$10,000. Such collections contain the coins most in demand today. If you have such a collection and wish to dispose of it please write us particulars. If you have a price on your collection so much the better, if not we will gladly make you a liberal offer after examination. The present market offers a splendid chance to realize full value for your holdings. We offer immediate cash payment and suggest the following business-like procedures—

- 1 Write and tell us the scope of your collection and about what you hope to get for it.
- 2 If we are interested will ask you to send the collection for examination or offer.
- 3 We will report to you within 48 hours after receipt.
- 4 Payment will be made on the day our offer is accepted or we agree to your price.

We are also interested in the purchase of certain foreign or ancient coins if along the lines of our regular stock.

# **The Standard Catalogue of United States Coins and Tokens**

**Price 25 cents**

There will be no 1943 edition of the Standard Catalogue of United States Coins and Tokens. The editors feel, however, that it is necessary to publish a supplement as there have been many valuation changes in the most popular series. Every catalogue purchased within the last three years may be brought up to date by the purchase of this supplement. A new feature in response to a popular demand is the listing of the late silver coins including mint marks 1892 to 1942.

# **The Standard Paper Money Catalogue**

**Price 25 cents**

When this catalogue was issued it was not the intention of the publishers to make it a yearly feature as the interest in paper money does not warrant such frequent publication. The tabulation of the \$1, \$2, and \$5 notes is one of the features of the catalogue and they have become so popular that values have changed rapidly. In the supplement we give a complete new listing with present day market values. The valuations of Fractional Currency have also been carefully revised.
